Dear Mrs Tinsdeall

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 14 patient questionnaires in April 2015.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=182323>

Please contact the office on 0845 5197493 or reports@cfepsurveys.co.uk if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Sample patient questionnaire

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	9	64%
Passive	Likely	2	14%
Detractors	Neither likely nor unlikely	2	14%
	Unlikely	1	7%
	Extremely unlikely	0	0%
	Don't know	0	0%
Total responses to this question		14	99%

* May not add up to 100% due to rounding

Graph 1

79% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 14 patients who answered the Friends and Family Test question, 14 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.

Cumulative and previous survey information

Table 2

	Total responses to Q1	Percentage of patients extremely likely or likely to recommend	Frequency and distribution of ratings					
			Extremely likely	Likely	Neither likely nor unlikely	Unlikely	Extremely unlikely	Don't know

Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

Please tell us why you answered as you did in question 1:

- I have always received excellent care whichever doctor or practice nurse I have seen, however trivial my problem might have been.
- Netherton Practice very friendly.
- I have never been asked. The article in the Examiner about the girl who had diabetes alarmed me. It should have been tested for straight away. Getting an appointment for the morning is still an issue. Nothing seems to have been done to stop all the missed appointments. I personally have received good quality treatment though.
- Excellent doctors and staff. Feel confident of treatment and generally at ease.
- One doctor is a lovely, kind person with a 'lovely bedside manner'!
- I am extremely satisfied in all aspects of the surgery from doctors, nurses and clerical staff. They are always helpful, polite and caring.
- Have experienced very good service with the practice.
- I've always been reasonably happy.
- I don't advise people.
- Good doctors and nurses.
- Because we have always had good treatment.
- Because they are all very good at what they do.

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
