Organisational Information for colleagues

Safeguarding

Safeguarding is everyone's responsibility and aims to protect people's health, wellbeing and human rights, enabling them to live free from harm, abuse and neglect. All services must have systems in place to identify adults and children at risk of, or suffering, significant harm. Clinical teams must ensure they work in partnership with other agencies to so that victims are helped, supported and protected. Leeds GP Confederation has in place a clinical safeguarding lead for children, adults, PREVENT, MCA and DOLs. All staff must have completed the appropriate safeguarding training as set out in the organisation's safeguarding policies. All staff must be aware of all safeguarding policies and how to manage a safeguarding event safely. These policies are available in Document Library on Systmone.

Infection prevention and control (IPC)

There are clearly defined processes for maintaining standards of cleanliness and hygiene which also ensures that arrangements for managing waste and clinical specimens keep people safe. To give assurance that these processes are in place, all hubs undertake infection control auditing and hand washing audits are part of our annual audit cycle. Hubs must also consider the systems in place to prevent and protect people from healthcare-associated infection. All staff are encouraged to be vaccinated annually from the flu and clinical staff are required to have the appropriate vaccinations in line with HR policy.

Information Governance and Caldicott Requirements

All services must fully comply with the requirements of the Information Governance Toolkit and Caldicott principles. It is mandatory that all staff undertake the approved NHS e-learning module on Information Governance and Caldicott as part of induction and annual mandatory training. The Senior Information Risk Owner (SIRO) is Jim Barwick. The Caldicott Guardian is Dr Ruth Burnett. The Caldicott Guardian is available to offer advice and support with concerns relating to information sharing and privacy and the 7 principles of Caldicott.

Medicines Management and Alerts

The MHRA and patient safety alerts reporting system is led by Mark Gulliver. All reporting of incidents involving medicines, are to be reported through DATIX reporting tool in line with national and local guidelines.

Alerts originate through NHSE central alerting system (CAS). Alerts cover a wide range of topics, from vaccines to patient identification. Types of alerts include Rapid Response Reports, Patient Safety Alerts, and Safer Practice Notices. Further details on the CAS can be found here:

<https://www.cas.dh.gov.uk/Home.aspx>

Accreditation, Qualifications, Skills and Experience

All staff involved in advising and treating patients must be appropriately qualified and competent to do so. GPs hold full registration with the GMC, undertake appraisal and revalidation and have an appropriate certificate confirming their legal eligibility to work in General Practice. Nursing Staff hold appropriate NMC's registration, undertake appraisal and revalidation, and, if they prescribe drugs and/or medicines, their entry in the NMC's register includes an indicator signifying that they hold a prescribing qualification. All independent prescribing nurses will have an up to date V300 on file, be held on a register and their details shared with the CCG medicines management teams. Nurse Practitioners and other Specialist Nurses have appropriate training, competence, and qualifications (and where appropriate are recorded on the NMC's register). Regular HR audits are undertaken to ensure these processes are robust. Pharmacists, physiotherapists, and other Allied Health Professions must be appropriately qualified, competent to undertake their contracted role and registered with the appropriate governing bodies.

Professional Performance, Development and Training

The service has a mandatory training matrix overseen by the Operational Team Leader. Clinicians are required to be equipped with the skills and knowledge necessary to perform effectively and efficiently in their roles and keep up to date with best clinical practices and any requirements of their professional and governing bodies. Clinical supervision identifies solutions to problems, improves practice and increases understanding of professional issues. Clinical supervision and support must take place at a local level through clinical meetings, appraisal, and opportunist process. Further detail is included in the Clinical Supervision Policy. Professional performance issues should be identified at the earliest possible stage to protect both staff and patients.

Appraisal and Revalidation

All staff undergo annual appraisal to support them with their ongoing development and ensure the highest levels of professionalism and competence are maintained. All GPs will be on the NHS England Performers List and as such undertake the local appraisal and revalidation system overseen by the Responsible Officer for Revalidation within NHS England. For nursing staff, the NMC stipulates that every Registered Nurse is individually responsible for ensuring that they undertake CPD to meet the needs of Revalidation. Other Allied Health Professionals must undertake internal appraisal and are expected to keep up to date and maintain competences in line with the appropriate governing body.

Confidentiality and consent

All individuals have a right to confidentiality with regards to their personal information. All staff must have a good understanding patient confidentiality and rights to privacy in line with data protection and information governance. Patients have a fundamental legal and ethical right to determine what happens to their own bodies. Valid consent to treatment is therefore absolutely central in all forms

of healthcare, from providing personal care to undertaking major surgery. Seeking consent is also a matter of common courtesy between health professionals and patients.

Did not attend and Late arrivals

All services must have clear processes in place for identifying safeguarding concerns in both adults and children, who do not attend planned appointments. All organisations in The NHS are required to have 'did not attend' guidelines to help deal with the 'unseen child'. Please see the "child not brought" flowchart available in Document Library on Systmone.

Clinical staff have a key role in ensuring patients are given every opportunity to continue engagement with services. It is recognised that disengagement is a strong feature in domestic abuse, serious neglect and physical abuse in children and families. Families who do not engage or disengage from services will need to be reviewed on an individual basis as part of a holistic assessment to determine any potential risk to the child. Practitioners should seek to obtain information from other professionals involved in the family and review any previous records to inform their assessment. Staff must raise any concerns in line with the organisation's safeguarding policies. No patient should ever be refused access to medical advice or assessment simply due to late arrival.

Patient Experience

Patient and public engagement is fundamental to the development of quality services. Patient experience is gathered through using patient questionnaires with a quarterly patient experience report. Leeds GP Confederation (LGPC) strives to deliver personalised patient care within standardised high quality patient pathways across the organisation, to ensure that each patient's journey is consistently excellent. Services must look to deliver care with the right person, at the right time for all patients within a standardised model to ensure consistency throughout the service.

Freedom to speak up

We encourage an open learning culture and encourage all staff to feel confident and supported in raising concerns. Any individual working within a LGPC service who has a safety concern must raise this within the organisation at the earliest opportunity. If staff have concerns about professional and or clinical practice of any of their colleagues, they should raise this with their line manager, and where this is not possible any concern should be escalated to the leadership team. Staff also have access to the Leeds GP Confederation's Freedom to Speak Up Guardian if they wish to Whistle Blow or raised concerns anonymously.

Access to care

All services must offer timely access to appropriate services in line with contractual compliance and best practice. Service models should be designed to ensure patients can access the 'right person, at the right time, in the right place'. All services must have clear processes for the safe triage and

assessment of patients seeking urgent care and appointments. This process should ensure that care is delivered within the opening times of the service in a manner that is safe for both patients and staff.

Complaints, Comments, Concerns and Compliments.

The organisation's complaints policy is to ensure that all staff are empowered to resolve complaints effectively, in a timely manner and in an open and positive way.

The policy sets out the process for handling, responding to and learning from complaints, both formal and informal. All complaints should be documented locally on the service complaints tracker via the Operational Team Leader where outcomes and learning are clearly documented. All learning should be shared both locally and across the organisation. Support and advice for leaders across the organisation when managing complaints at local services is also available.

CQC Compliance

Extended Access has a Registered Manager (RM) as part of CQC compliance. The RM needs to be someone who has responsibility for the local service and who is hands on day to day. The Registered Manager is supported by the organisations Nominated Individual who has overall responsibility for service delivery in line with the standards set by the CQC.

Where can I find?

Car park	Back of building underground staff car park, if full across the street car park
Main Door	Front of building
EA access point to the building	Entrance door in underground car park
Disabled Entrances	Front of building
Goods Entrances	Front of building

Defibrillator and Equipment	Back of reception in cupboard
Emergency Drugs	Back of reception in cupboard
Oxygen	Back of reception in cupboard
Emergency button/panic alarm	System one panic button function
Pulse Oximeter	All clinical rooms
Paeds Pulse Oximeter	All clinical rooms
Baby scales	Room 2
ECG Machine	Room 1
Nebuliser	Room 7, 2 nd floor, brought down during hub hours
Dermatoscopes	In the cupboard at the rear of reception

Fire Assembly Point

The Fire Assembly points are located either out of main entrance across the road in police station car park or out of staff entrance and across the road in Morrison's car park. Ensure all patients and visitors are taken to a place of safety outside the premises. All Extended Access Service personnel are provided with a local induction of the building, including fire escapes and fire assembly point prior to the start of their first shift.

Waste disposal

Domestic - Is located outside in the underground car park. the bin areas are not locked. The cleaners are responsible for waste disposal so please place all rubbish in the bin at the end of your session.

Clinical - Is in each clinical room.

Confidential - Each room has a shredder or in confidential waste console available in Reception.

Useful Buttons on SystemONE top of screen

Datix – to access Datix and report incidents that may need investigation

Document Library – Links to ALL Docs needed

Emis A-K and Emis L – Z Brings pop up of EMIS practice and Code

Language (Red Telephone) - Pop up with details of Language Empire process

Support (?) - Pop up with Telephone numbers of Ops Team and IT contacts

Safeguarding Icon – With Safeguard referral information

Secretarial Support: Please see referral section on Page 32 System information for further details.

System Information

<p style="text-align: center;">Logging in</p>	<p>Clinical system SystemOne or EMIS is used (patients' notes will be accessed via their home surgery's clinical system and not via the Extended Access booking platform)</p> <p>Windows</p> <p>Admin Login: reception Admin Password: GPSurgery01</p> <p>GP login: registrar GP Password: Medico</p> <p>SystemOne Login: Via Smart Card</p> <p>ICE Access should be setup. Cardiac

Echocardiogram	Refer to cardiology
ECG	Appointment with HCA/Practice Nurse at the patient's normal surgery
24 hour ECG	Refer to cardiology – Also available via ICE

Respiratory

X-ray	Via ICE
Lung Function Tests	Spirometry – Practice Nurse at the patient's practice
Nebuliser	Treatment Room 7, brought downstairs to reception during Hub hours
Booking into an Asthma Clinic	Appointment with Practice Nurse at Hub / the patient's normal surgery

Specialist Investigations

X-ray	Via ICE
Ultrasound	Via ICE
Bone Densitometry	Via ICE
Hearing Test – Child	Task referral to Hub secretary
Hearing Test - Adult	Task referral to Hub secretary

Investigations – Pathology

Pathology	Via ICE
Phlebotomy Services	Patient to contact their own GP practice to organise a phlebotomy appointment or book an appointment through Extended Access Service via reception.
How patients are notified of abnormal pathology results?	Patient to contact their normal surgery for follow up of test results
When are specimens taken to hospital?	Specimens are collected at 1.45 pm Saturday and 11.45am Sunday.

Paperwork and Administration

Is there a policy relating to urgent referrals?	Indicate in the task to the Hub Secretary if the referral is urgent.

Complaints and Significant Incidents:

Complaints

Complaints should be handled and reported to the Operational Team Leader at the earliest convenience. In the event of a complaint, please could you call the Operational Team leader on call (0113 887 3899) following up with an email to confed.ea@nhs.net with any information you think would be useful so that it can be investigated accordingly.

Patients should be advised to email confed.ea@nhs.net or write to us using the attached appendix 1.1

Significant Incidents

If a significant incident/event arises within the hub, on SystemOne, select the Datix icon and fill in the Leeds Clinical Commissioning Groups Incident Report Form. Please contact the Operational Team Leader on call as soon as possible if you require immediate/ urgent assistance.

General Procedures

Opening procedures

Ensure that the Privacy Notice, Chaperone and Needle stick posters are displayed in reception.

Set up and Assurance Checks – Including Emergency drug and Equipment checks

- Sharps bins must be signed and dated and fully closed if full and left for collection.
- Admin staff are responsible for ensuring GP rooms are fully equipped for their session. If admin staff are unsure of what is required, this can be escalated to the Operational Team Leader on call.
- HCA and Nurses are responsible for ensuring their rooms are fully equipped for their session. This means a check must be undertaken at the start of session on the emergency drugs to ensure they are in date and equipment is calibrated prior to use and a stock check at the end of the session so that the room is left as you would expect to find it. For Healthcare and Nurse Sessions, this is factored into the start and end of the session and the clinician must write a textual comment to say it has been completed in the “set up and assurance” and “stock/samples” blocks.
- If your room is not equipped, please feedback any issues you may have to the Operational Team Leaders by emailing confed.ea@nhs.net

Accessing and using the appointments system (SystemOne)

1. Turn on the computer.
2. If using a laptop, you will need to log onto the Wifi / Use cisco to create a VPN connection (Passwords will be in site specific information).
3. Insert your smart card into the keyboard/ card reader.
4. You will be asked to enter your pin and then select your role. (This can be your practice / Leeds GP Confederation for the booking platform).
5. Double click on the ‘SystemOne’ icon on the desktop and wait for it to load.
6. Click on the ‘log on with NHS smart card’ box / Log on with your Username and Password if no smartcard present.
7. Scroll down and find ‘Out of hours PCC – Leeds GP Confederation’ and click the ‘log on’ button.
8. Once the home screen has loaded, click on the ‘Appointments’ tab in the top left corner and select Ledger or Overview.
9. On the left hand side of the screen locate the ‘Site’ tab, open the drop down box and select the site you are working at which will bring up the appointments for this hub location only.

If you are using EMIS (Clinicians only)

Please follow the above steps 1-3. Proceed with the below:

4) If you have the roles on your smartcard click the surgery you are wanting to access and EMIS should automatically load up the clinical system. If this does not happen or your smartcard is logged into another practice, please enter the organisation ID and your username / password manually. This method will not allow you to prescribe electronically. You would have to log out and log back in with your smartcard and link it to your EMIS profile to prescribe electronically.

5) Click the search button and find the patient which you would like to consult in their medical record.

Booking an appointment

- Right click on the available slot and click 'book appointment'; this will reserve the slot.
- You will be asked to enter both first and last name as well as date of birth to search for a patient, HOWEVER, it is much easier to enter the first two letters of each name and the date of birth as the system is very sensitive to spelling.
- Click 'view all matches' when prompted and check the patient's address and best contact telephone number.
- Double click on the patient.
- Check patient details are correct and they are registered at the correct surgery (if showing a different surgery are they newly registered?).
- Click 'select'.

Booking telephone consultations

- Follow the booking appointments procedure.
- Once appointment is booked right click on the appointment slot.
- Click 'amend appointment'.
- In the details section enter '**Telephone**' and in flags section – select "telephone appointment" and click 'ok'.
- Right click on appointment and select 'waiting' and the slot will turn orange, with vertical blue line.

Cancelling an appointment

- Right click on the appointment slot.
- Scroll down to administration.
- A list will appear at the side.
- Click on 'cancelled by patient'.
- Click on 'cancel appointment'.
- Click 'don't re-book'.

Re-booking appointments

- Follow cancelling appointment procedure but instead of clicking 'don't re-book' click 're-book now'.
- The patient's details will appear in the bottom right-hand corner of the screen.

- Double click the new appointment slot and the patient details will be entered into that slot.

To mark a patient as arrived

- Right click on the appointment slot.
- Select 'arrived'.
- The appointment slot will change to purple.

When the hub is full

When all of the appointments are full for that day:

- Look for alternative free hub slots on different days.
- If the need for an appointment is urgent for that day direct patients to NHS111 service.
- After 4pm midweek and 10am weekends, you may use the Same Day City Wide response located at St Georges Centre and Bellbrooke. If this is at full capacity and so is the hub you are working at, please inform the Operational Team Leader on duty who will switch off the Directory of Services (DOS).

Handover

If a handover to another team member is clinically indicated, please use the "SBAR" handover guidelines.

It is based on the following:

S – Situation: What is happening at the present time?

B – Background: What are the circumstances leading up to this situation?

A – Assessment: What do I think the problem is?

R – Recommendation: What should we do to correct the problem?

It can include additional information (not listed above) that is clinically relevant to ensure that patient safety is maintained, and the patient journey is a positive one.

Ideally, the method of handover would be via an electronic means, primarily task, to the most appropriate person/group. In the event of this being impractical, the SBAR process will reduce the risks of miscommunication.

The screenshot shows the accuRx web interface. At the top, there is a teal header with the accuRx logo on the left and navigation links for 'Delivery Receipts', 'Help', 'The accuRx Pharmacy', and 'Lorna' on the right. The main content area has a light grey background and features a teal heading: 'Your invitation has been successfully sent!'. Below this heading, there are two columns of information. The left column, titled 'PATIENT, Example (Mr)', lists patient details: NHS No (0000000000), Age (03-Oct-1991 (28y)), Gender (Male), and Mobile No (XXXXXXXX299). The right column, titled 'Patient's Progress', shows a list of events: '✓ Message sent' at 11:14 on 06/04/2020, '✓ Message received' at 11:14 on 06/04/2020, and two status messages: '... Waiting for patient to open video link' and '... Waiting for patient to set up device'. A red oval highlights the 'Patient's Progress' section. At the bottom of the main content area, there are two buttons: a white button labeled 'Message a new patient' and a blue button labeled 'Open video consultation'.

7) Once your patient is ready and setup, click open video consultation

8) You may need to enable your browser for camera/mic

9) You should then be up and running with your video consultation

Appendix 1.3

Translation Services - update

As from the 1st September 2020 Language Empire provides Leeds CCG with all Language Service Requirements.

The portal will allow you access to the following services:

- F2F Spoken bookings (Polish, Urdu, Arabic, etc)
- F2F Non Spoken Bookings (BSL)
- Scheduled Telephone
- Scheduled Video
- Translations

You will all be able to access an on-demand telephone interpreting platform, this can be used in emergency situations, or when there is no requirement to have a F2F interpreter on site.

You can access OnDemand Telephone in the following ways:

- Step 1) Dial 03331 883716
- Step 2) Give the Operator your 8 digit access code (44854736)
- Step 3) Ask for the language you require

Email: bookings@empire-groupuk.com

Telephone: **0330 20 20 270**

A tutorial on how to use the portal can be found through the following link:

<https://vimeo.com/451466484/089c0938f7>

Appendix 1.4**Leeds GP Confederation - Referrals Standard Operating Procedure**

Document	Standard Operating procedure for making referrals from Leeds GP Confederations Services
Author(s)	Mark Gulliver Shaun Major-Preece
Date	August 2023
Review Due	August 2025

Referral Process when working in the Leeds GP Confederation Services

There will be occasions when following clinical assessment, you identify that a referral is needed to further assess and manage a patient. This guide details the referral process that must be followed.

ALWAYS check patient details including address and telephone numbers are up to date during the consultation and ensure the patient fully understands the reason for the referral.

Some of the practices across the Confederation have their Leeds GP Confederation referrals processed by Hub Secretaries. Other practices have their referrals processed by their own secretarial team, as detailed further below:

The Hub secretaries for EA cover the following practices:

- Abbey Grange Medical Practice, Norman Street, LS5 3JN. Tel: 29 51844 - Email: moorgrangesurgery@nhs.net – EMIS
- Arthington Medical Centre, 5 Moor Road, Leeds, LS10 2JJ. Tel: 385 2180 - SYS1
- Beeston Village Surgery, Town Street, Beeston, Leeds, LS11 8PN. Tel: 272 0720 - SYS1
- Burley Park Med Centre, 273 Burley Road, Leeds, LS4 2EL. Tel: 29 53850/53860 Email: burleyparkmedicalcentre@nhs.net- EMIS
- Burton Croft Surgery, 2nd floor, Headingley Medical Centre, 1 Shire Oak Street, LS6 2AE Tel: 274 4777 Email: traceyoconnell@nhs.net – EMIS
- Church Street Surgery, 57 Church Street, Hunslet, Leeds, LS10 2PE. Tel: 271 1884 - SYS1
- City View Medical Practice, 123 Cemetery Road, Leeds, LS11 8LH. Tel: 467 7515 - SYS1
- Craven Road Surgery/HollyBank, 1st Floor, Headingley Medical Centre, 1 Shire Oak Street, LS6 2AE Tel: 0113 295 3540 - SYS 1
- Fieldhead Surgery ,65 New Roadside, Leeds, LS18 4JY Tel:295 3410 Email: fieldhead.surgery@nhs.net - SYS 1
- Highfield Surgery Holtdale Approach, Leeds LS16 7RX. Tel: 295 3601 Email: hydeparksurgery@nhs.net -SYS 1

- Vesper Road Surgery, 43 Vesper Road Leeds LS5 3QT Tel: 275 1248 Email: enquiries.vesperroad@nhs.net - SYS 1

If the practice is not listed above, please send the task directly to the relevant practice secretary via a 'task' on the individual practices clinical system.

If the practice is listed above the Confederation Secretary needs to be altered via the task process detailed below (on the Confed booking platform).

Alerting the Confederation Hub Secretary of a referral:

In the body of the referral template include the following details

- Registered GP Practice:
- Urgency: Urgent 2WW / Routine (delete as applicable).

Ensure the **User Group** is set to **Hub Secretaries** and ensure the **Subject Header** is set to **Referral**.

DO NOT put referral information/details in the body of the referral template all information should be documented within the patients notes using the correct referral templates where appropriate.

Any problems or queries contact the Operational Team Leader/ Deputy Operational Team Leader on call for further support. Alternatively for any I.T queries contact Craig Calvert or Andy Beaumont via the support button on S1.

The EA secretary checks referral tasks daily in the Extended Access SystemOne booking platform **only**. From the Referral task, the secretary will identify the patient and open the patients registered GP practice via SystemOne or EMIS to action the referral.

2 WEEK WAIT REFERRALS:

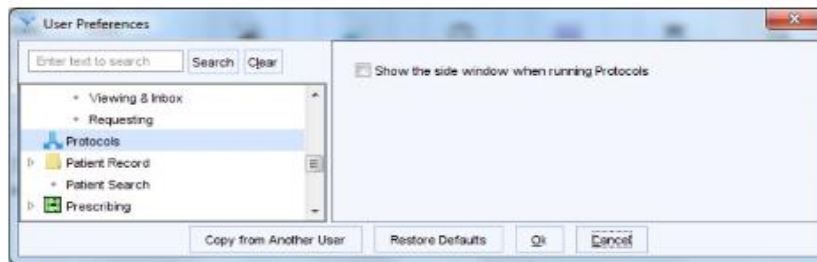

Inform the patient of the decision to do a fast-track referral for suspected cancer. The referring clinician must clearly document this in the patients notes and ensure the patient fully understands what is going to happen.

Making a referral on S1:

The referring clinician should always complete the DART templates on **Systemone**.

DART 2WW Process

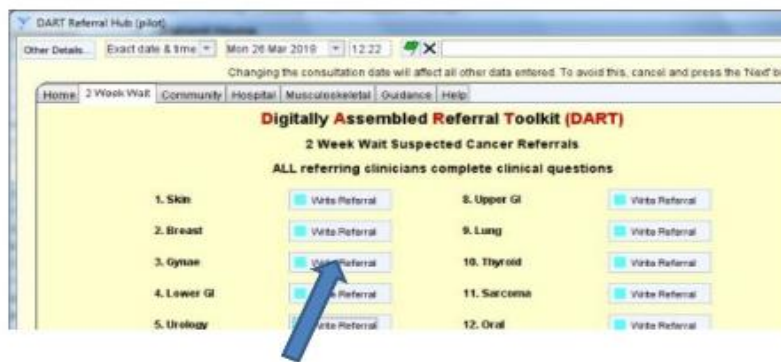

Make sure your user preferences are set to not show protocol side window

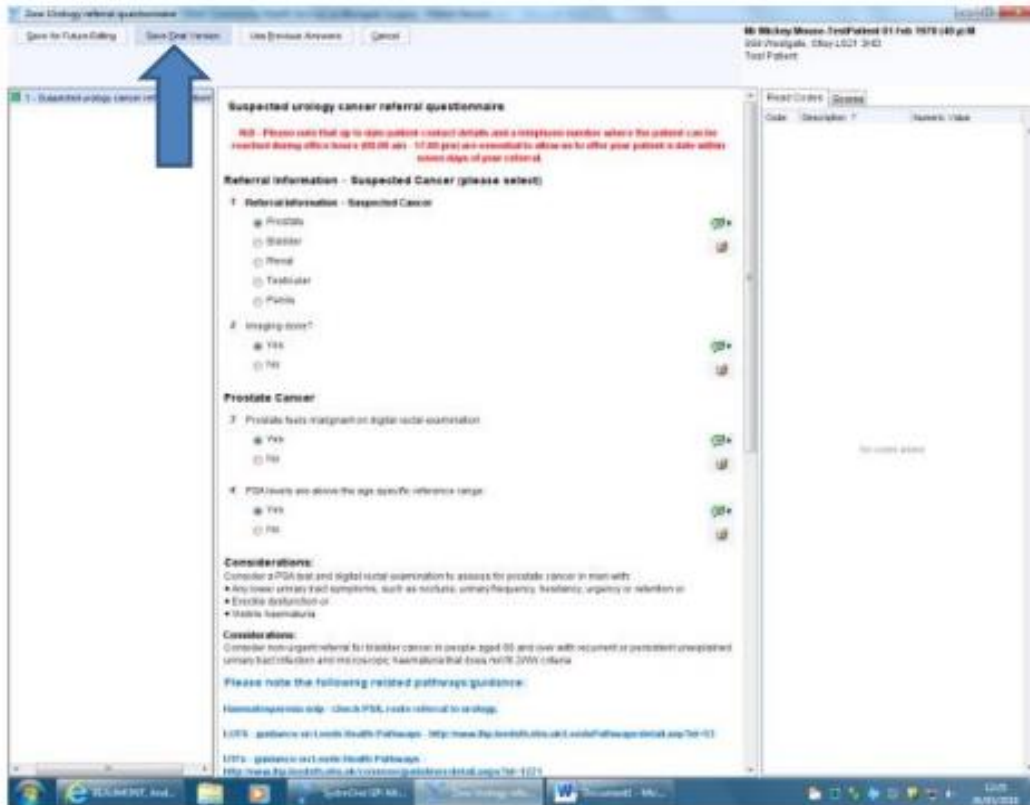

Click Dart button (Blue Square on small toolbar) (or search in box in bottom LEFT of screen if icon absent)

Click required button

Complete questionnaire

Click **“Save Final Version”**

“YES”

2 Week Wait Suspected Cancer and ACE (Non Specific Symptoms) Referrals

Question

Do you want to automatically assemble the completed Referral Form?

Choose 'No Thanks' if you intend to task a secretary to assemble and send the form
Choose 'ERS' if you intend to assemble the form and then send it yourself using ERS

Please ALWAYS use RAS on ELECTRONIC REFERRAL SYSTEM (ERS) - 'ZWWW TELEDERMATOLOGY' to submit referral. Remember to attach your photos to the ERS referral if sending yourself.

No Thanks ERS Pause

ADMIN STAFF

Choose "No Thanks"

Highly Suspected Referral Form

Question

Do you want to send a task to the secretary to assemble and send the referral form?

Yes No Pause

Click "Yes" to task secretary

Click "OK"

(The task box pre-populates with the surgery's preferred recipient and task subject heading)

Making a Dermatology 2ww referral using the Dermatoscope for images:

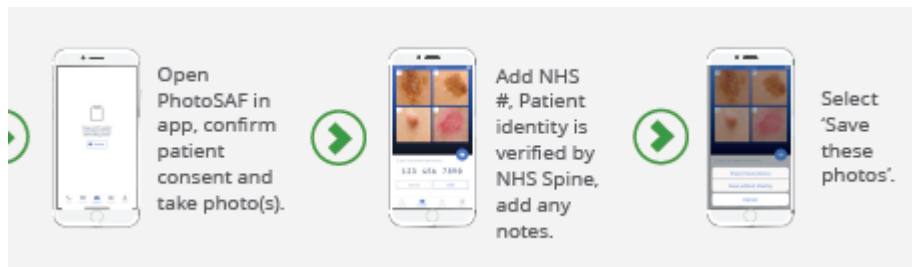

The referring clinician, in required cases should also send photos using ConsultantConnect app. Use the dermatoscope attachment from the hub/practice reception but use YOUR OWN PHONE using the details below (the hub iPod will not be logged into the correct account).

1. Obtain the tele Dermatology attachment/dermatoscope from reception
2. Using your personal Mobile phone, download the consult connect app from **Google Play** or the **Apple app Store**
3. Open the app and sign into the Leeds GP Confed Account

Username: wycb-leeds.leeds.confed2ww@nhs.net

Password: Summer2022!

4. Follow instructions to take 3 x photos

These photos will store on a cloud, a member of the secretary team will then login to download and attach to the 2ww referral. Please record in NJ notes if pictures were obtained.
