Brief Medical Summary required from your previous medical practice

Due to the current crisis it may take weeks/months for us to receive your medical records from your previous practice.

Therefore it is essential that you contact your previous practice immediately and ask them to email our practice at walnutway.surgery@nhs.net with a brief summary which should include the following:

- 1) Your full name and date of birth and NHS number
- 2) Active medical problems
- 3) Significant past medical problems
- 4) Current Acute Medication
- 5) Current Repeat Medication
- 6) Allergies

If your previous surgery, want us to email them, then please email us at walnutway.surgery@nhs.net with your full name, date of birth, current address and their email address asking us to email them to get your medical summary so that you can register with the surgery.

Please note: We cannot issue medication until we have received this. It is the sole responsibility of the patient to chase their previous practice to get this sent to us, they should continue to contact them until this is done. Once this has been received and added to the system and the patient has had their initial consultation with the health care assistant. Then medication can be issued.
