Summary Care Record

Summary Care Record (SCR)

If you decide to have a SCR, it will contain important information about any medicines you are taking, allergies you suffer from and any bad reactions to medicines that you have had it will also include basic information about your current diagnoses. Giving healthcare staff access to this information can prevent mistakes being made when caring for you in an emergency or when your GP practice is closed. Your Summary Care Record will also include your name, address, date of birth and your unique NHS Number to help identify you correctly. If you and your GP decide to include more information it can be added, but only with your express permission.

For more information: visit <https://digital.nhs.uk/services/summary-care-records-scr>

I do not wish to have a Summary care Record

I wish to opt out of SCR

(N.B. this will mean NHS Healthcare staff caring for you may not be aware of your current medications, any allergies or reactions to previous medication.)

Local Shared Electronic Health Record

Local Shared Electronic Health Record

Many areas of the country have a local shared electronic health record too. Giving healthcare staff access to this information can prevent mistakes being made when caring for you in an emergency or when your GP practice is closed. Are you happy for your record to be shared across organisations caring for you? (this is accessed by relevant staff for your direct care on a need-to-know basis only)

Are you happy to be part of the local shared electronic health care record?
(if you select no, you need to be aware that NHS Healthcare staff may not be able to see important elements of your care history)

Yes

No

Electronic Prescribing Service (EPS)

The EPS allows prescribers – such as GPs and practice nurses to send prescriptions electronically to a dispenser (such as a pharmacy) of the patient's choice. This makes the prescribing and dispensing process more efficient and convenient for patients and staff. As a practice, we would encourage all patients to opt for electronic prescribing.

I DO give consent for my prescriptions to be sent electronically to the pharmacy

I DO NOT give consent for my prescriptions to be sent electronically to the pharmacy
